Supplying Equipment, Solutions and Service for Water and Wastewater

Koester provides comprehensive valve system integration of industry leading water and wastewater equipment and solutions. Koester covers all of New York State, including Long Island, Northern New Jersey and Canada for sales, application, implementation, and servicing.

AIRVAC Vacuum sewer technology

CRISPIN-MULTIPLEX AWWA C-504 Butterfly Valves;
Both fanged and mechanical joint
Either 125# or 250# rated in sizes 4" thru 72"
AWWA C-507 resilient seated plug valves;
AWWA air and vacuum relief valves

ELITE VALVE Metal or resilient seated cast stainless steel knife gate valves in sizes from 4" thru 72";
Options include bonneted valves to eliminate leakage as well as specialized materials of construction

J&S VALVE AWWA C-509 resilient seated and C-500 metals seated gate valves in sizes 3" thru 72";
Superior materials of construction include all fusion bond epoxy coated ductile iron bodies, all SS fasteners and SS stems as standard

FONTAINE/RODNEY HUNT Stainless steel and cast iron water control sluice gates and slide gates
Fabricated butterfly valves

ROTORK Heavy duty valve actuators and actuator systems

SINGER VALVE Hydraulic control valves
Pressure reducing
Pressure sustaining
Pump control
Level control
Electronic flow control and measurement
Wastewater relief valves
In line strainers

VENT-O-MAT Air and vacuum relief valves

WASTOP In line elastomeric check valves for storm water and tank overflow control
