Koester offers comprehensive service to support, maintain, and optimize water and wastewater systems. Through responsive field service and technical expertise, we help ensure reliable performance and long-term system efficiency.

- Onsite repair
- Instrumentation services
- Troubleshooting and diagnostics
- Utilization of existing equipment and components
- Replacement with new components as needed
- Full range of products for timely solutions
- Rapid response

UPGRADE AND RETROFIT SOLUTIONS

Koester improves system performance by evaluating existing equipment and facilities, extending useful asset life, and implementing upgrades to more advanced technologies. With over 50 years of experience, we provide practical retrofit solutions to enhance reliability, efficiency, and long-term performance.

- Evaluation of existing equipment and systems
- Identification and replacement of outdated technology
- Inspection services to prevent unexpected failures
- Equipment upgrades to improve efficiency and reliability
- Retrofit and refurbishment solutions
- Turnkey installation and system integration

PREVENTATIVE MAINTENANCE

Maximize system performance and asset life through proper operation and maintenance of your water and wastewater systems. Koester offers preventive maintenance programs designed to improve reliability, optimize performance, and manage long-term operating costs. Our experienced field service technicians provide scheduled service and support whenever and wherever you need it.

- Customized service scheduling
- Operational inspections and assessments
- Performance testing and system verification
- Troubleshooting and diagnostics
- Repairs and corrective maintenance
- Pump station and equipment maintenance
- Spare parts inventory evaluation
- Operator training and support
- Laser alignment and vibration analysis
- Flow studies and flowmeter calibration

PARTS

Koester maintains a robust inventory and provides access to a comprehensive range of OEM and compatible replacement parts. Our team supports timely sourcing and delivery to keep your systems operating without interruption.

- Pump stations
- Clarifiers
- Grit removal systems
- Bar screens
- Chemical feed systems

...and much more
